### V. INFORMATIONAL ITEMS

#### A. ISLO Descriptions – Denise Schulmeyer

*(See Attachment for ISLO Descriptions)*

The ISLO task force meets on 1<sup>st</sup> and 3<sup>rd</sup> Tuesday at 11am if you would like to give input. These ISLO's are supposed to be nonspecific to disciplines. Rather, these ISLO's should be able to fit any degree. Denise went through a few with many insights. It was decided that anyone with input should send their thoughts to Denise and the Task Force. (See attachment).

#### B. Integrated Planning Update (Rafia, Williams, Hicks)

The Integrated Planning framework includes SSSP, Student Equity and Basic Skills. The state is now asking that instead of submitting a separate plan for each categorical, we now submit a single, integrated plan. We created a taskforce (with over 40 members). The taskforce worked on connecting the work to our existing strategic plan goals (Outreach, Engagement and Retention) and to the Guided Pathways Pillars (clarify the Pathway, get on the pathway, stay on the pathway, ensure learning). The group identified 5 core goals which would allow for the leveraging of funds from the three categoricals. These 5 Goals are:

- 1) To **increase the number of students by streamlining onboarding**, deepening collaborations with high schools districts, workforce agencies, and additional community partners, **in order to reflect our service population.**
- 2) To **clarify the pathway to degree/certificate completion campus-wide by formalizing and piloting program maps.**
- 3) To **reduce the time** it takes students to successfully complete college-level coursework from **Math, English, and ESL** from campus-wide **basic skills sequences.**
- 4) To **improve course success rates and decrease equity gaps** in 12 high-enrollment, gateway courses.
- 5) To improve identification of and support for students at risk for academic or progress probation.

#### C. Student Success Liaisons Introductions

Tate introduces the new Student Success Liaisons or first known as retention specialist, these folks will be working with students (in conjunction with an early alert system) to help bridge the gaps between instructors and student services. These positions were created as part of our Achieving the Dream planning work. Dean Chauderlot will be leading the work of operationalizing their roles. She has already begun reaching out to seek insight from faculty and staff regarding needs and opportunities.
