

Project Success - #BetterTogether

Project Success linked learning communities are taught by uniquely trained instructors who work together to connect course content and assignments as well as partner with college services to provide an outstanding educational and social experience for students. All classes, except English 020, transfer to CSU and UC. Through Project Success, you can:

- ☑ Complete more units than other students
- ☑ Earn higher GPAs than the average freshmen
- ☑ Experience a greater sense of academic and social engagement by being part of a dynamic team!

These linked classes are offered through the **First Year Experience Program**. To register for these classes, contact Grossmont.viarapida@gcccd.edu
