

Dr. Cook,

Good morning ma'am I wanted to send you an email regarding one of your professors, Dan Greenheck. I wanted to praise the College for hiring such a phenomenal math professor. I am an older student (served in the United States Marine Corps) and have been out of high school for quite some time. While pursuing a Mechanical Engineering degree, I have noticed that most of my math skills have been forgotten. Mr. Greenheck's strategy of teaching has enabled me to succeed and carry on my once forgotten math skills (now solidified) to the next class. The way Mr. Greenheck teaches is one of a kind, he breaks everything down to basic math allowing those students that are struggling or forgot the concepts to keep pace with the course ledger. I have never had such an efficient professor at the collegiate level. As a veteran student I can appreciate Grossmont College for bringing in such an outstanding professor. Thank you for your time and effort in reading my letter.

Semper Fidelis,

MICHAEL BUDD
