V.		INFORMATIONAL ITEMS				
	A.	Curriculum Committee update (Jeff Waller) Last semester we put together the GE sub-committee together and there were discussions about the GE package. The curriculum committee approved a change to the GE Package so that Grossmont will align with Cuyamaca, region X and with 505 standards. The main change is students will have to choose two classes from the list. This will also help set up students who are following transfer patterns to be eligible for an AA. Jeff went over the changes (see presentation)				

		We will be voting on this in a future AS meeting.
B.	Cornerstone LMS (RochelleWeiser)	PD has been working on getting an online tracking software for Professional Development. We have found a software called Cornerstone that we will be implementing. This software will not only track your professional development hours but also provide online learning. We are working with the district and an outside liaison to bring our data into this system and create an interface. Then you will be able to log in, see your hours requirement, how many hours you have completed, 8000 learning modules, and any district training that are currently taking place. PD is hoping to have a soft rollout in the Spring 2020 and be fully functional by Fall of 2020. This will also eliminate all PD paperwork.
C.	Teaching and Learning Series: The Syllabus	<p>Presented by Sarah Martin and Michelle Crooks. High Hopes syllabus This presentation is “How to encourage student success from day one.”</p> <p>Both Sarah and Michelle Completed an @One Certificate course on Equity and Culturally Responsive Teaching. They both also attended some courses at SDSU on cultural competency.</p> <p>The plan is to work on making our syllabi more equity minded. See Presentation There was also hands on work that took place during the meeting.</p>
