3CSN - What is the Relationship Among Literacy, Metacognition, and STEM Content Knowledge? And What Can We Do About It?

Where: Grossmont College, Griffin Gate

Calendar: 2016-2017 Professional Development Calendar

Created by: Rochelle Weiser

Description:

What is the Relationship Among Literacy, Metacognition, and STEM Content Knowledge? And What Can We Do About It? This highly interactive workshop will engage participants in metacognitive conversations centered on complex disciplinary texts that defeat many students. By discovering and reflecting on their own ways of unlocking STEM graphs, charts, illustrations, and problems, and so forth, participants will experience ways the Reading Apprenticeship approach helps students master core concepts and helps instructors explicitly support academic literacy in their discipline. Participants will learn how to bring a Reading Apprenticeship initiative to their campus and will be invited to join the thousands of faculty already part of California's statewide community of practice, the Reading Apprenticeship Project. The Reading Apprenticeship framework draws on the strengths students and faculty bring to build confidence and power to their work with texts, concepts, and each other. This is a 3CSN facilitated workshop hosted on our campus. Breakfast and Lunch will be provided, so pre-registration is necessary. <https://tinyurl.com/yaozfgqq> Presenters: Lilit Haroyan teaches Physics and Astronomy at East Los Angeles College. She is also a Consultant for the Strategic Literacy Initiative at WestEd (SLI). In addition, she takes part in planning and facilitating the Faculty Teaching and Learning Academy (FTLA) offered through Los Angeles Community College District (LACCD). She earned her M.S. degree in Physics at Yerevan State University, Armenia and further continued her research in Max Planck Institute for Radio Astronomy, Germany, and Istituto Nazionale di Fisica Nucleare (INFN), Italy. Her postgraduate studies in Astroparticle Physics (with specific focus on nuclear interactions) have been published and presented internationally. Devon M. Werble has been working for the Los Angeles Community College District since 2002. Devon is an adjunct professor at Pierce and teaches English grammar, writing and study skills. She has been using the Reading Apprenticeship (RA) framework in her classroom for a number of years. In addition, she is the RA Campus Coach at Pierce College and hosts a number of workshops, seminars and one-on-one meetings with faculty across disciplines. This workshop is eligible for 7 hours of FLEX credit. If you have any questions, contact Cindi Harris cindi.harris@gcccd.edu or Rochelle Weiser rochelle.weiser@gcccd.edu.

Adopting Open Educational Resources and Zero Textbook Cost Options

Where: Grossmont College, 51-576

Calendar: 2016-2017 Professional Development Calendar

Created by: Rochelle Weiser

Description:

Presenters: Lara Braff, Dave Dillon, Nadra Farina-Hess Open Educational Resources (OER) and Zero Textbook Cost (ZTC) resources are teaching and learning resources that are online, openly licensed, free of charge, and offer new ways to engage students. These resources can help students obtain their degrees without incurring additional textbook costs, which pose a significant barrier to college completion and success for students both locally and nationwide. This workshop aims to educate attendees about how OER/ZTC are created, licensed, and distributed; and how these resources can be incorporated into one's own courses. The facilitators will also present Grossmont College's plan to implement a ZTC degree pathway, with the support of a grant from the Chancellor's Office. This grant will fund a one-year OER librarian position that will assist faculty in learning about, and adopting, OER/ZTC options. **Eligible for 1 hour flex credit
