

2009-2010 Grossmont College Articulation Agreement: Lower Division Major Requirements for Bachelor of Science in Health Science

Please note Community College students can transfer to InterAmerican College at any time as long as they have completed IAC minimum enrollment requirements. IAC's minimum requirement is a High School Diploma or its equivalent.

<u>The IAC experience</u>: IAC students will have the opportunity to complete their Bachelor's and/or Master's degrees in an educationally enriching environment in courses that are held just two days a week in the evening. Each course is one month long or nine sessions in duration, making it easy for students to work and carry out life activities successfully and fully while in school. For further information about IAC please call us at the number below or meet with an IAC Counselor in the Transfer Center or at the IAC campus.

<u>Information about the Bachelor of Science in Health Science degree</u>: The Bachelor in Health Science degree is for students who are interested in completing an advanced degree in a health science field or for students who are interested in employment in health care, in the medical industry, or in education.

<u>General Transfer Information</u>: Students can transfer up to 60 lower-division transfer level units to IAC. Each transfer course must be completed with a "C" grade or better.

Lower Division Major Requirements for Bachelor of Science in Health Science:

- 1) Student must complete all biology courses listed below with a GPA of 2.5 (not to include Biology 150).
- 2) Each non-science class can be completed with a 2.0 GPA and all classes must be completed with a "C" grade or above.

InterAmerican College Lower Division Major Requirements	Grossmont College Articulated Courses
