

The University of Arizona accepts IGETC with two additional specific requirements. With planning, these may be met as a part of IGETC:

- 1) Two lab sciences;
- 2) A course covering race, gender, class, ethnicity, or non-Western Area Studies.

Criteria for this requirement may be found online at:

<http://web.arizona.edu/~uge/gened/guidlnsgrce.htm>

If students complete IGETC including both of these requirements, there would be no additional lower or upper division GE requirements after transfer.
